PROFESSIONAL SUMMARY

Results-driven Data Scientist and Full-Stack Web Developer with hands-on experience in machine learning, statistical analysis, business intelligence, and scalable web application development. Proven ability to extract actionable insights from complex datasets and translate them into user-facing products. Currently building afeef.dev — a live multi-page platform serving 500+ learners with free data science notes, 57 premium landing page templates, 10 interactive developer tools, and an AI-powered learning hub. Pursuing M.Com while working full-time in the financial services sector in Oman.

TECHNICAL SKILLS

Programming: Python (Pandas, NumPy, Scikit-learn, Matplotlib, Seaborn), SQL, JavaScript (ES6+), TypeScript

Data Science & ML: Machine Learning, Deep Learning, NLP basics, Regression, Classification, Clustering, A/B Testing, Time Series Analysis, Feature Engineering

Data Analytics: Exploratory Data Analysis (EDA), Statistical Analysis, KPI Tracking, Forecasting, Data Cleaning & Wrangling

Databases: PostgreSQL, MySQL, Supabase, SQLite, AWS S3 & Redshift (basic)

Visualization & BI: Power BI (DAX, Star Schema), Tableau, Matplotlib, Seaborn, Recharts, Excel (Pivot Tables, XLOOKUP, Power Query)

Web Development: React 18, Next.js 14 (App Router), Tailwind CSS, HTML5, CSS3, Node.js, REST APIs, Supabase Auth & Storage

Tools & Platforms: Git & GitHub, VS Code, Jupyter Notebook, Vercel, GitHub Pages, Razorpay, Formspree, HubSpot CRM, Tally

Certifications: Data Science & ML — Illinois Institute of Technology | AI-Driven Data Analytics — BOZJGHO-JHOLM | Elevate DS & ML — Entri | Tally — IBS Commerce Institution

PROFESSIONAL EXPERIENCE

Business Development Officer

2024 – 2026

AJX Exchange (Al Jadeed Exchange) — Muscat, Oman

- Analyzed transaction volume, revenue, and client behavior across 1,000+ accounts using SQL and Python (Pandas) to identify high-value segments and drive targeted business development strategies.
- Built and maintained monthly performance dashboards in Excel and Power BI, tracking KPIs and forecasting client profitability for senior management.
- Collaborated with Finance and Operations to identify and resolve data discrepancies, improving reporting accuracy by eliminating inconsistencies across cross-functional datasets.
- Segmented clients using HubSpot CRM data to evaluate impact of new service offerings on revenue and retention, informing pricing and product decisions.
- Conducted market and competitor analysis to support strategic expansion, presenting data-driven recommendations to leadership.
- Drafted formal internal correspondence and branch-level reports, supporting operational compliance and documentation standards.

PROJECTS

afeef.dev — Personal Product Platform (Live)

2026 – Present

[Live Site](#) | Built with HTML, CSS, JavaScript, React, Next.js, Supabase

- Designed and built a multi-page learning and product platform serving 500+ users — comprising 8 interconnected pages covering free notes, premium PDF notes, templates, tools, and services.
🔗 Live Website: [Live Site](#)
- Free Notes Hub: Structured learning notes across 8 data & web tracks with PDF downloads, progress tracking, study streaks, and confetti completion animations.
🔗 Access: [Track Notes](#)
- Premium Notes Store (paid.html): Hosts 140+ free PDF resources across 7 categories (Pandas, ML, SQL, Python, Power BI, DS, Interview Prep) with live search, PDF preview modal, and progress tracker.
🔗 Store: [Premium Notes](#)
- Developer Tools (tools.html): Built 10 fully functional browser-based tools — SQL Formatter, CSV→JSON, JSON Validator, Regex Tester, Colour Palette Generator, Markdown Preview, Base64 Encoder, Text Analyzer, Number Base Converter, Python Formatter.
🔗 Tools: [Developer Tools](#)
- Templates Store (tum.html): Showcases 57 premium landing page templates with live iframe demos and AI prompt copy functionality.
🔗 Templates: [Templates Page](#)
- Order Management & Contact System: Built a web-based order intake system allowing users to submit service requests directly through the website. Integrated email API for automated order notifications and real-time customer communication with structured form handling and validation.
🔗 Order Page : [Services](#)
- Practice Lab: Developed an interactive coding practice platform enabling users to execute SQL, Python, Java, and Excel exercises in-browser, supporting hands-on learning and skill development with real-time output and structured practice modules.
🔗 Practice Lab: [Practice Lab](#)
- Admin Portal: Built a Next.js 14 + Supabase admin dashboard for tracking page views, visitor sessions, PDF downloads, tool usage, contact submissions, and template analytics.

Customer Shopping Behavior Analysis

2026

[GitHub Repo](#) | Python, Pandas, NumPy, SQL, Power BI, Excel

- Conducted end-to-end data-driven analysis on customer purchasing patterns to identify high-value segments and optimize marketing strategy.
- Applied EDA, statistical analysis, and visual storytelling to surface trends in customer lifetime value, basket size, and churn risk.
- Delivered interactive Power BI dashboard visualizing sales performance, segment breakdown, and actionable business recommendations.

Global Sales & Profitability Analysis Dashboard

2026

[GitHub Repo](#) | Python, Pandas, NumPy, SQL, Power BI, Excel

- Analyzed multi-country sales transaction dataset spanning products, segments, and discount categories to extract profit drivers and margin insights.
- Used Python and SQL for data cleaning, transformation, and segmentation; built Power BI dashboards for cross-regional profitability comparison.
- Identified underperforming product-discount combinations and provided data-backed recommendations that supported pricing strategy decisions.

EDUCATION

Master of Commerce (M.Com) — Pursuing <i>Sree Narayana Guru Open University, Kerala</i>	2024 – 2026
Bachelor of Commerce (Co-operation) <i>Calicut University, Kerala</i>	2021 – 2024
Higher Secondary Education — Commerce & Mathematics <i>Government Higher Secondary School, Chalissery</i>	2019 – 2021
High School Education — SSLC <i>Government High School, Chalissery</i>	2018 – 2019

ADDITIONAL INFORMATION

Languages: English, Hindi, Malayalam, Tamil, Arabic, Urdu

Nationality: Indian | Based in Muscat, Oman
